

Debug_Coarsening_Report
Generated: 2025-03-31 19:37:41
Test Directory: debug_coarsening

Test Description

This report contains diagnostic results for debugging the coarse with variable initial mesh refinement.

Diagnostic tests included:

1. Detailed coarsening behavior analysis with logging
2. Element level inspection for level 1 refinement
3. Element level inspection for level 3 refinement

This debugging helps identify issues with the refinement initial and the coarsening action implementation.

Visualizations Included

1. debug_coarsening_behavior.png
